Fall to Spring Persistence Rate

Please Note: The Fall-to-Spring rate differs from the Fall-to-Fall persistence rates in that it is based on the fall cohort of students returning to the institution in the spring who initially enroll as degree-seeking, are not enrolled in ESL coursework in the fall, earn 9 or more credits in the fall, and haven't graduated prior to the spring term.

Note: Passing the National Council Licensure Exam (NCLEX) is required to become a registered nurse. The BHE measures pass rates on this exam for first-time test-takers as an indication of academic quality and learning outcomes (the inclusion of repeat test takers would increase the annual pass rate).

*A higher passing standard was instituted in 2004 for this exam. As a result, the average pass rates for Massachusetts community colleges fell slightly from 2003.

Annual Unduplicated Credit Headcount

Berkshire

Between 1999-2000 and 2001-2002 BCC experienced a decline in headcount. Three factors contributed to the enrollment trend for these years:

1. Beginning in 1999-2000, BCC eliminated one cycle of its federally funded CASS program leading to a loss of 21 international students in the annual headcount.
2. During the interval between 2000-2001 and 2001-2002, Berkshire County's pool of traditional college bound students declined by over 6.3%.
3. A significant economic decline in the region coupled with industry downsizing and/or closings contributed to a loss of non-traditional student enrollment during this same two-year period. While the annual data presented is accurate, because the forces influencing enrollment were unanticipated and unique, it does not adequately reflect performance.

Annual Unduplicated Credit Headcount

Cape Cod

Prior to 2001-2002, Cape Cod reported to IPEDS an annual unduplicated credit headcount which excluded any student enrolled only in developmental education (remedial education) courses, which do not satisfy general education or degree requirements, but do carry institutional credit. The 2001-2002 count includes such students. This change should be noted when comparing Cape Cod's FY2002 headcount with prior years

Annual Unduplicated Credit Headcount / Annual FTE Enrollment

North Shore

Starting in FY 2000 North Shore absorbed six Certificate programs and nine Associates in Applied Science Programs that had previously been offered at Essex Agricultural and Technical Institute.

Annual Unduplicated Credit Headcount / Annual FTE Enrollment

Quinsigamond

In FY 2000 Quinsigamond absorbed four certificate programs and seven Associate of Science programs that had previously been offered at Worcester Technical Institute.

Fall Unduplicated Credit Headcount

Berkshire

The substantial decline in fall enrollment statistics for 2001 and 2002 resulted from the same factors influencing the college's annual enrollment data for this same time period

Fall Unduplicated Credit Headcount

Bristol

A review of enrollment and completions data revealed two minor discrepancies. First, the Fall 2001 enrollment figure was 6,124. A review of the Fall 2001 data demonstrated that the HEIRS file had 6,130 students and the IPEDS file had 6,132. The final approved figure (HEIRS sign-off) was 6,130. Six students who had originally shown in the HEIRS file as having zero credits actually had credits and should appear in the linear trend analysis

Although Greenfield Community College data reflect an increase in charges for 1997 compared to 2002, GCC student charges as a percent of state median income has actually decreased.

Fall to Fall Persistence Rate**Mount Wachusett**

Mount Wachusett Community College's fall 2002 cohort used for persistence analysis is inaccurate due to a logic error discovered in the HEIRS extract program used to produce the file for submission. This logic error has been corrected but the college is unable to accurately recreate the cohort from historic records. Thus, MWCC's cohort count used for this analysis is overstated.

Degrees and Certificates Awarded**Bristol**

The number of FY 1997 graduates reported in the trend book is 637. The College's IPEDS report contains 647 graduates. HEIRS I was converted to HEIRS II between 1997 and 1998, and it is possible that the conversion with its accompanying edit checks resulted in this slight change.

Degrees and Certificates Awarded**Cape Cod**

For FY2002, Cape Cod ceased matriculating Certified Nurse Aide students and ceased awarding formal certificates to Certified Nurse Aide students who successfully completed the seven credit course of study. Students completed the course of study and were positively placed, but did not receive certificates. This change is reflected in the decrease in the number of total certificates (96 certificates) reported to IPEDS for FY2002, compared to FY2001 (127 certificates) and prior years. For FY2001, 36 Nurse Assistant/Aide certificates were conferred. For FY2002, none were conferred. Therefore, Cape Cod's # and % Change FY97-FY02 for Certificates and Degrees should be viewed in the light of this change in practice

Degrees and Certificates Awarded**Massasoit**

Massasoit began tracking completers of short-term certificates (fewer than 30 credits) in FY04. Certificates reported prior to FY04 include only those who earned a board-certified award (30 or more credits).

Northern Essex Community College

In FY00 and FY01, NECC had large enrollments and course loads through its delivery of in-plant and pre-employment courses for Lucent Technologies (pre-employment training alone accounted for hundreds of courses and enrollments in excess of 8,500 during those two years).

The FY00-02 period saw a growth of training programs through the WTF, thus offsetting some of the drop in totals for FY02 caused by the loss of Lucent and the effects of 9/11 on contractual training.

FY03 saw a decline in WTF activity and a continued lack of corporate contractual training, although enrollment was up, in part due to individuals enrolling in our Continuing Ed workforce development programs and the HRD programs. In addition the reorganization of CES in FY03 resulted in a streamlining of the number of workforce development courses offered through that area of the college in order to reduce program costs and improve cancellation rates.
